» *The essential bestseller among stage scrims with sharktooth mesh weave*

- » **Scrim with "sharktooth" rectangular mesh**
- » A **great-value alternative** to our Eurogobelin Scrim
- » Ideal for **opaque/transparent effects** frequently used in theatres
- » Highly recommended as an **alternative surface for front-projection and rear-projection**
- » Can be used **in two layers** to create **shimmering effects**
- » Ideal as a **paintable surface**
- » **2-ply weave** offers good **stability** and **low warping** under tension
- » Material available in a range of widths including **extra-wide** allowing you to dress vast areas without panel assembly seams
- » **M1** flame-retardant rating (length of rating not limited)
- » Open weave offers good **acoustic transparency**

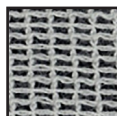

# COLOURS

White  
002

Black  
003

Grey  
100

» *Grey available in 11 m width only  
(other widths available to order, please contact us)*

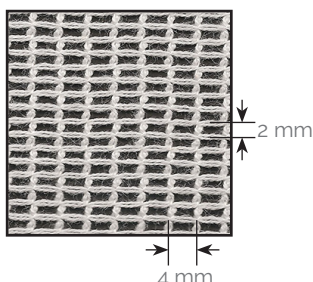

# SPECIAL FEATURES

## The "magic" of stage scrims

Make whole sections of your set appear and disappear as if by magic, by simply playing with the lighting on your scrim!

- » **Back-lighting** reveals objects behind the scrim  
(lighting makes the **scrim transparent**)
- » **Frontal or side-lighting** makes them totally invisible to the audience  
(lighting makes the **scrim opaque**)

## Mesh size

» **Acoustic transparency** lets you install this material in front of sound sources (speakers, PA, etc.)
