

# Shakespeare Scrim

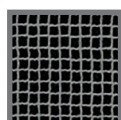

Ref. 1501

002

003

100

A classic **stage scrim** with square mesh, particularly recommended for **opaque and transparent effects** highly prized in the theatre.

By playing with the lighting, you can make the elements positioned behind the scrim appear - the back lighting making the scrim see-through - or disappear completely - front and/or side lighting making the scrim opaque.

It can also be used as an original **front-projection** and **rear-projection screen**.

This scrim is **paintable** for making stage sets and scenery.

Like most scrim materials, it lets sound through, offering **perfect acoustic transparency**, and can therefore be installed in front of speakers.

Rated **M1 flame-retardant** and woven in **extra-large widths**, this scrim lets you cover large areas without panel assembly.

In flame-retardant cotton, this scrim material is recommended for use protected from the elements.

Technical data	Value	Notes
Mesh size	3 x 3 mm	Square mesh
Width	1100 cm	
Weight	75 g/m <sup>2</sup>	
Thickness	1 mm	
Flame-retardant rating	 M1 Type B	Standard: NF P 92-503-507 Standard: BS 5867-2
Composition	95% cotton, 5% polyester	Flame-retardant
Roll length	± 50 - 60 m Centre-folded, bales	Cut-to-length possible

## Additional information

Care

Storage recommendations

Store indoors (away from light and humidity)

## Additional information
