

Ref: 1507

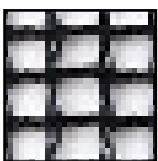

A **great-value events scrim** with square mesh, ideal for **dressing** structures and ceilings. It allows sound to pass, offering perfect **acoustic transparency**, and can also be installed in front of sound sources without problems.

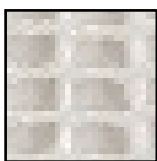

This multi-purpose material is also ideal for **projection**, is **paintable** for making sets and scenery, and can even be used for creating **stage effects requiring transparency and opacity**.

Rated **M1 flame-retardant** and woven in **extra-large widths**, this scrim gauze lets you cover large areas without panel assembly.
