

A **light** open-weave fabric with irregular appearance, tarlatan has the specific feature of being extremely well **coated**, giving it a **stiffness** and **malleability**. This material is entirely **non-stretch**, and will hold whatever shape you want to give it.

This **amazing value textile** is particularly appreciated for **events decorations**, but also for making **stage sets and scenery**. By using a surface coating, it gives your creations extra depth. It can also be used for making **wall-hangings**, as well as **dressing stage structures** and stands, or even for running up **curtains**.

Woven entirely from natural cotton fibres, tarlatan is an **environmentally-friendly** material.

Like most open-weave materials, tarlatan offers perfect **acoustic transparency**.
