SPECIAL FEATURES

The "magic" of stage scrims

Make whole sections of your set appear and disappear as if by magic, by simply playing with the lighting on your scrim!

- » **Back-lighting** reveals objects behind the scrim
(lighting makes the **scrim transparent**)
- » **Frontal or side-lighting** makes them totally invisible to the audience
(lighting makes the **scrim opaque**)

Mesh size

» **Acoustic transparency** lets you install this material in front of sound sources (speakers, PA, etc.)
