

As always, M1 flame-retardant rated, our 2 essential **metallic voile materials** available in gold and silver colour (*Saturne* and *Galaxie*) are available in both original and **crinkle finish**.

This crinkle finish is produced by machine using a special process to ensure the effect is long-lasting.

We offer 2 versions of this fabric according to the desired effect:

- **Lamé 50% crinkle**: the mix of 50% lurex and 50% translucent fibres give a sparkle effect combined with an **intense transparent quality**.
- **Lamé 100% crinkle**: the 100% lurex fibres give an intense metallic effect with a **moderate transparency**.

This remarkable material is ideal for **decorations** at events and parties, making **stage sets, curtains** and wall hangings...

**Play with lighting effects** to give a different tone to each facet and make your **backdrops** a **uniquely versatile screen!**

We recommend protecting this flame-retardant FR Polyester from the elements.

**Crinkle Lamé 50%**  
(*Galaxie Voile* base, intense transparency)

**Crinkle Lamé 100%**  
(*Saturne Voile* base, moderate transparency)
