These **carabiners** are the best solution for **quickly** hanging your **curtains** on all types of **rails** and **double tracks**.

When not under load, the spring-loaded tab **opens easily**. When under load, the hook's natural elastic deformation prevents unwanted spontaneous opening.

Compliant with ROHS and DIN-5299-C, they meet current **safety** regulations for multiple technical uses.

Our mechanical carabiners are available in **2 colours** and **3 dimensions** to suit your aesthetic requirements and the weights and dimensions of the items to be hung.
